Subject: *URGENT* - PLANNING APPLICATION 2017/1759/9

RE: Planning Application 2017/1759/9

We wish to object to the aforementioned planning application until a formal review and consultation has been carried out with local businesses. We have recently been notified of the application which I believe is in the process of proceeding. As a direct neighbour, our rear gate can be accessed via the courtyard, we should be informed about your application and be given the opportunity to make a representation.

Without knowing the plans and the proposed development of the area we feel the application should be stopped until a full consultation is taken with businesses and residents alike.

Kind regards,
S Rashid
