2017/2560/P	Sasha McMurray	21 Elizabeth Mews NW3 4UH	30/05/2017 12:18:09	OBJEMPER	<p>I have recently bought the property at 21 Elizabeth Mews where I live and frequently work from home.</p> <p>The proposed work, to the building attached to the rear of my house would significantly increase the height of the building and add to the feeling of encroachment in my house.</p> <p>There is currently limited natural light and I believe this addition would only limit this further.</p> <p>Since moving in to my house I have observed people throwing cigarette ends onto my roof from flats at the rear of 40 England's Lane. This is a terrible fire hazard as well as being extremely inconsiderate. Extending this building yet another floor would potentially add to this issue.</p> <p>For me, personally, it is important to have a calm environment to work while at home. As these plans are extensive, I assume the building work would be noisy and time consuming.</p> <p>I have a skylight to the rear of my property which is the only ventilation for the back of the house and there are no other rear windows. The dust generated from this type of would most likely mean I would have to leave this shut for a prolonged period.</p> <p>On these grounds I wish to object to the proposed work at 40 England's Lane.</p>
