13A Burghley Road
London
NW5 1UG

Dear Ms Whittredge

Planning Application No 2017/0670/P – 11 Burghley Road, London NW5

We are sending you these photographs to show you that even at 15:40 we will be losing sunlight into our bedroom through our french windows and our kitchen. We do not understand how the architect for the proposed extension can say that “the proposed alterations will have minimal impact on the daylight and sunlight to 13 Burghley Road.” As you can see, we will be seriously affected if the extension is passed by Camden Council.

We live in a lower ground flat and what little sunlight we get is of vital importance to us. It will cause enormous distress if this extension is allowed. I am an artist and I enjoy this period of direct sunlight to paint next to my french windows.

Yours sincerely
