The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy, policies DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies and policies D1 and D2 of the Camden Local Plan Submission Draft 2016.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans 1701/01 Rev. A/1V17; 1701/02 Rev. B/1V17; 1701/03 Rev. A/1V17; 1701/03 Rev. B/1V17; 1701/04 Rev. B/1V17; 1701/05 Rev. A/1V17; 1701/06; 1701/07/1V17; Design and Access Statement (Prepared by GKA Architects); OS Map Extract (dated 19/08/2016).

Reason: For the avoidance of doubt and in the interest of proper planning.

- 4 The flat roof of the single storey side extension hereby approved shall not be used at any time as an external terrace/balcony, and any access out onto this area shall be for maintenance purposes only.

Reason: In order to prevent any overlooking of the neighbouring occupiers in accordance with the requirements of policy CS5 of the London Borough of Camden Local Development Framework Core Strategy, policy DP26 of the London Borough of Camden Local Development Framework Development Policies, and policies G1 and A1 of the Camden Local Plan Submission Draft 2016.

Informative(s):

- 1 Reasons for granting permission.

The proposed side extension would be constructed in line with the rear building line of the host building, and would infill part of the existing side passage between the property and the side boundary wall. The extension would be flat-roofed and constructed in London stock brick to match the host building and existing side boundary wall, and would extend 1.1m above the boundary wall. It is considered that the extension overall would remain subordinate to the host building in terms of design, form and scale, and would not detract from the design and proportions of the host building.

The existing lower ground floor side window and door would be replaced with two timber framed sash windows, and a new four panelled timber door would be inserted into the flank elevation. Although these openings would be highly obscured by the side boundary wall, the size and positioning of the openings would be proportionate, and considered acceptable in design terms.

Overall, the proposal would respect and preserve the design and proportions of the original building and the character and appearance of the Camden Square Conservation Area.

Given the siting of the proposal at lower ground floor level along the side boundary with St Pauls Crescent, the proposed extension would not give rise to any adverse impact on the amenity of neighbouring occupiers in terms of loss of daylight, sunlight, outlook or privacy.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area under s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

No objections have been received prior to making this decision. The site's planning history was taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies, and policies A1, D1, D2 and G1 of the Camden Local Plan Submission Draft 2016. The proposed development also accords with the London Plan 2016; and the National Planning Policy Framework 2012.

You are advised to consult the Council's Building Control Service, Camden Town Hall, Argyle Street WC1H 8EQ, (tel: 020-7974 6941).
- 4 The Inspector's report on the Local Plan was published on 15 May 2017 and concludes that the plan is 'sound' subject to modifications being made to the Plan. While the determination of planning applications should continue to be made in accordance with the existing development plan until formal adoption, substantial weight may now be attached to the relevant policies of the emerging plan as a material consideration following publication of the Inspector's report, subject to any relevant recommended modifications in the Inspector's report.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
