Dear Sirs

17 BRANCH HILL, LONDON NW3 REF: 2015/3377/P

EngineersHRW are the structural engineers for new house at 17 Branch Hill. Further to receipt of the draft Section 106 Agreement we propose the following regarding section 2.9 "Detailed Basement Construction Plan".

The "Basement Design Engineer" will be Simon Robinson the Director currently overseeing the design of the project. He is a chartered engineer with extensive basement experience.

We propose that the "Certifying Engineer" be Stephen Haskins a Director of EngineersHRW also with extensive basement experience and who has not been involved in the project. The independent review would be the equivalent of a Category 2 check as DMRB BD 2/05 Approval Procedures.

Please see the attached CVs and Practice brochure for details of professional experience, qualifications and basement experience.

Attached is the proposed Basement Construction Plan for review. This will incorporate the contractors temporary works design when available.

Yours sincerely

Brett Scott
for and on behalf of Engineers Haskins Robinson Waters
