The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy; policies DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies; and policies D1 and D2 of the Camden Local Plan Submission Draft 2016.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans: (Prefix: 1151JS_FUL1) SH1 (REV B); SH2 (REV B); SH3 (REV B); SH4 (REV B); SH5 (REV B); SH6 (REV B); SH8 (Rev A); SH9 (Rev A); SH10 (Rev A); SH11 (Rev A); SH12 (Rev A); SH13 (Rev A); SH16 (Rev A); Planning Statement dated 27/03/2017

Reason: For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Reasons for granting permission.

The five rooflights would be low profile with aluminium frames to match the existing rooflights elsewhere on the property. The three rooflights on the top of the roof would not be visible from anywhere; the two rooflights to the rear would be 'conservation-style' flush with the roofslope and seen only in limited private views from 'above ground' windows of surrounding properties. It is considered the rooflights would be an acceptable and sensitive alteration to the property that would preserve the character and appearance of the host building and wider conservation area.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the Conservation Area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

The proposal is not considered to cause any adverse impacts on the amenity of adjoining residential occupiers.

No objections have been received prior to making this decision. The planning history of the site has been taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy; policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies; and policies A1, D1 and D2 of the

London Borough of Camden Local Plan Submission Draft 2016. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework.

The Inspector's report on the Local Plan was published on 15 May 2017 and concludes that the plan is 'sound' subject to modifications being made to the Plan. While the determination of planning applications should continue to be made in accordance with the existing development plan until formal adoption, substantial weight may now be attached to the relevant policies of the emerging plan as a material consideration following publication of the Inspector's report, subject to any relevant recommended modifications in the Inspector's report.

- 3 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts which cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Argyle Street WC1H 8EQ, (tel: 020-7974 6941).
