2017/2221/P	Carol Hughes	Steeles Mews North	13/06/2017 09:10:44	COMMNT	<p>I strongly object to this proposed extension. If, as I am assuming, they intend to access the site through the adjacent Mews [Steeles Mews North], this construction will be a nightmare for the homeowners and tenants who live there.</p> <p>We have already had six months of building in the actual mews and to be subjected to more dirt, noise and pollution is completely unacceptable.</p> <p>If the site is accessed through the property at number 23 and not through the mews, and if all skips and so on are set down at the front of number 23 and not in front of ours, then I have no real objections to the actual extension. The plans look very nice. My objection is, as I have said, to site access.</p> <p>One last thing - the phone number listed on the notice of application goes dead after several rings - makes me wonder if any voices will be heard or heeded regarding this application. I rather doubt it.</p>
