2017/2383/P	Natasha Plowright	Flat 4 Grove End House 150 Highgate Rod NW5 1PD NW5 1PD	13/06/2017 23:39:41	SUPC	I am supportive in principle for the proposed building works to flat 6, grove end house, pending full checks and assurance that all works are carried out in line with building regulations and as appropriate for a Grade II listed building. I believe that the proposers will ensure that these are in place and will also support much needed improvements to the property
2017/2383/P	Natasha Plowright	Flat 4 Grove End House 150 Highgate Rod NW5 1PD NW5 1PD	13/06/2017 23:39:58	SUPC	I am supportive in principle for the proposed building works to flat 6, grove end house, pending full checks and assurance that all works are carried out in line with building regulations and as appropriate for a Grade II listed building. I believe that the proposers will ensure that these are in place and will also support much needed improvements to the property
2017/2383/P	Rachel Hindley	Flat 5,Cumberland Villas 152 Highate Road London NW5 1PE	13/06/2017 22:01:15	COMMNT	I live immediately adjacent to Grove End House in the flat that currently overlooks the flat roof that is subject to the additional floor/attic storey planning permission. Currently I enjoy views to the south (to the Shard) and to some extent the west of London via the velux windows shown in some parts of the plan. From the plans it looks like I will lose the view, but I understand the need for my neighbours in Flat 6 (the applicants) to have more spacious accommodation for their family, so would accept the loss of this view and sense of space it gives me so they can achieve this. I have had trouble understanding the detail of plans, and would therefore request the planning committee considers any loss of light that might be incurred to my flat. The two velux windows at 150 Highgate Road (my flat) that are south facing onto Grove End House provide daylight to the kitchen, bathroom, and living area, so I am especially keen not to lose this. If the application is accepted I understand that there maybe a temporary roof structure blocking the entire south side of my flat for many months, so would appreciate if every effort could be made to use material that would allow me as much light as possible whilst building works are ongoing.
2017/2383/P	Jelena Cousins	7 Chetwynd Road	12/06/2017 12:15:07	SUPPRT	I am writing to support this this planning application. The extent of the proposed works, in my opinion, are not detrimental to the listed building and especially to its surroundings. The extension will be hardly visible from any public realm or private property as it is set back from the front and rear facades and the side elevation has been dealt with sympathetically to the existing building. The architect has done an extensive research and analysis of the project and having read it I can see no reason for this planning application not to be granted planning. As an immediate resident neighbour I fully support this application.
