2017/2394/P	Ms Ward	Flat 13 1 Little Russell St Camden London WC1A 2HR	12/06/2017 17:58:50	OBJNOT	As a nearby resident opposite, im concerned about its change of use to a restaurant for several reasons: the amount of noise generated by the footfall of patrons; frequent & heavy duty vehicle deliveries in this very small conjested street where our building gets often hit by vehicles; the noise from extractor. The windows change on the ground floor gives concern in this conservation area; also the new additional windows in the roof. Im hoping that the charming roof & chimneys will be sympathetically retained & restored, as the butterfly roof tops in this street have been seen to be of characterful importance in the area (see rejected planning permission on no7 coptic St)
