Dear Sir / Madam,

I live at the south end of Kings Terrace at 2a, almost adjacent to the proposed development site and I am writing to ask that Camden Council Planning refuse this planning application to further extend 48-56 Bayham Place.

I have two main objections to the proposal:

1. The increase in height of the building will negatively impact the amount of light enjoyed in Kings Terrace. The road is narrow as it is - the proposed development will affect the amount of light in the street outside of summer months.
2. The building will be visually overbearing. It is an inappropriate design for Bayham Place. Such a large building would be totally out of keeping with the neighbouring properties, and completely dominate the view down Kings Terrace.

I invite you to visit my home to verify that these objections are valid.

Should you require any additional information, clarification of any comments made, or would like to arrange a visit to our home; do not hesitate to contact me.

Yours faithfully,

Dr S J Leppington
