Dear Sirs

Re these works . I currently enjoy a view of mature trees . The eucalyptus tree is a focal point in that view. However it is leaning into the garden of 90 Savernake Road (see photo of central tree in view ) and at its present height could cause a hazard in the event of a storm , if the crown is not removed. I understand that my neighbour wishes to fell the tree and replace the tree with a cherry Tree . Providing the eucalyptus tree is replaced with a MATURE tree, I have no objection.

Kind regards.

Joy Palmer

Dear Darlene Dike

Thanks for your email. I am a little confused by your email saying that a decision was made on 17th May as the letter sent out to me was dated 22nd May. I am referring to a felling of an Eucalyptus tree NOT a reduction of the crown of a cherry tree. Are you talking about a tree in the garden of 88 Savernake Road. Has the applicant made 2 tree planning consent applications?

Kind regards  
Joy Palmer

Dear Joy

Thank you for your email.

Please note that the case you refer to was decided on 17/05/2017 and permission given to reduce the crown of the rear garden cherry tree by 30% and remove all vertical regrowth, so as desired the tree is being pruned and not felled.

Kind regards

Dear Planning Department

I understand that there has been an application to fell a tree in my neighbours garden. I am concerned that I would lose my view of trees on the skyline. See attached photos. The tree in question is in the middle. The tree appears to be leaning, however my query is whether it can be pruned instead?

My neighbour has indicated that she would replace the existing tree with a flowering cherry tree. Obviously I would be happy with this option as a replacement providing a mature tree was planted in its place. Can a planning application be granted with such a proviso made ?

Kind regards

Joy Palmer
