2016

It seems the landline is dying with more and more people relying on a combination of their mobile phones and internet connections. But has it died yet?

How many of your (non-work) calls made and received are on your home phone compared with mobile/web calls?

Results

I'm aged under 25 (638 votes)

Don't have a home phone	■	250 votes (39%)
Never/rarely use the home phone for calls	■	323 votes (51%)

I'm aged 65+ (5115 votes)

Don't have a home phone		88 votes (2%)
Never/rarely use the home phone for calls		1321 votes (26%)
Use home phone for fewer than 40% of calls		518 votes (10%)
Roughly half of calls are via home phone		234 votes (5%)
Use home phone for more than 60% of calls		562 votes (11%)
Use home phone for all/almost all calls		2392 votes (47%)

26,182 votes received.

We try to use technology to limit voting to one per person. Occasionally, this may erroneously block a few people's votes (eg, from shared offices). Apologies for that.
