Camden Council Planning Application **Reference No: 2017/0414/P and 2017/0415/L**

Dear Ms Henry,

I wish to express my support for the planning application and application for listed building consent for the Middlesex Hospital Annex, 44 Cleveland Street London, W1T 4JT. The application will:

- Deliver over 70 per cent affordable housing including, homes for specialist doctors and nurses, New Build Social Rented Units and Intermediate units which will together help create a mixed community in the area;
- Include new office spaces which will help boost local businesses by encouraging additional customers in the area;
- Create a new high quality landscaped space through Bedford Passage connecting Cleveland Street and Charlotte Street. Bedford Passage will be opened up for the first time in decades;
- Offer a new public space at the heart of the scheme which will be available to residents, office workers and the general public; and
- Retain and refurbish the existing workhouse and both the North and the South Houses, giving them a long term future.

What is more, as part of the planning process, full historical and archaeological studies of the site have been undertaken and submitted to the council. These have raised no issues with the development.

Finally, the CAAC and Historic England have no objection to the planning application.

As such, I urge Camden Council to support this application on the grounds stated above.
