

## Solar Range

The Solar Range of glazed bricks are the most commonly used glazed bricks in the UK construction industry. Made from fine river bed clay, the bricks are uniform, straight edged and very smooth on the surface.

We have two factories who keep a range of standard colours in stock and would be available in around two weeks depending on quantity.

Almost any type of colour, design or style can applied to these products and they can be made in any RAL colour.

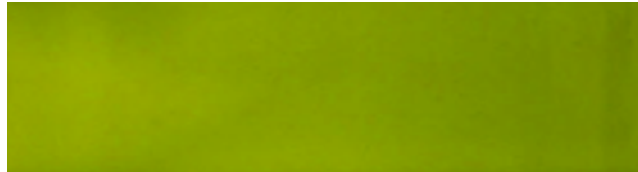

Available in the following sizes:

65 x 102 x 215mm

71 x 107 x 223mm

Non-standard shapes and sizes can be made to order. The glazed brick range can also be applied to British Standard special shape references.

# Solar Range Colour Selection

## IMPERIAL LIGHT YELLOW

---

**These exclusive imperial bricks are handmade for us at London Reclaimed Brick Merchants, which means these are quality bricks you won't find elsewhere. Available in numerous colours you can get Imperial Light yellow bricks, which are cheaper alternatives to the traditional bricks but offer a similar look and feel.**

We have 75 years of experience as brick merchants, serving London and the Home Counties as a family run business. You can rest assured that, when you choose us as your brick supplier, you will get both fantastic customer service and top quality materials.

Providing a brick matching service means that if you have specific requirements we can help you get the Imperial Light yellow brick to suit your needs. Don't hesitate to [contact our](#) expert team if you have any questions about our services or if you'd like to ask about dimensions and applications of bricks.
