Dear Mark,

Further to our recent conversation and viewing the most recent drawings that form part of the Section 73 application for the Ashton Court project, we are happy to confirm that the addition of light well/terrace areas for plot 1 - 3 basement levels will have no further impact on the trees. The removal of T5 Raywood ash within the location had already been recommended for removal to facilitate construction within the previous report and plans.

We are also pleased to note that the rear courtyard area beneath the canopy of T1 London plane will be at ground level, negating the requirement for any significant excavations beyond foundations for the main structure.

Yours sincerely

Edward Cleverdon BSc (hons) Arb, MArborA
