2017/2713/P	Nick Bradfield DPCAAC	Flat 3 36 Dartmouth Park Road NW5 1SX	23/06/2017 19:15:20	COMMEM AIL	<p>DPCAAC: We have looked in detail at this variation of conditions. Certainly much effort has gone in o improving the design, which was approved on appeal. However, there are two specific issues .</p> <ol style="list-style-type: none">1. Provision has been made for 3x 240L wheelie bins. Given Camdens recycling policy, one bin for each of three large flats would appear totally inadequate.2. There is a question as to how the refuse will be collected from these three flats. In particular, whether Transport for London has been consulted on refuse vehicles using a very busy bus boarder. <p>If this construction is to go ahead, It will be important that the Planting Maintenance Schedule is strictly adhered to.</p> <p>Also, given this prominent site, it would be desirable to have a mock up of what the front would look like from the West.</p>
