2017/2803/T	A Parrish	Lyndhurst Tce.	18/06/2017 15:32:24	COMMEM PER	<p>Rosslyn Hill is very busy and polluted with traffic fumes .</p> <p>I understand wishing to fell ever-green trees which cast shade all year but PLEASE ENFORCE RE-PLANTING OF MORE SUITABLE TREES FOR THE SITE e.g.. silver birch is a wonderful deciduous gatherer/block to air pollution from cars, lorries etc. , it allows filtered sunlight to pass through it , is light not gloomy and its roots never damage foundations .</p> <p>Robinia-Frizzier is another suitable tree for a small garden .</p> <p>NB. vast numbers of lorries are planned to use Rosslyn Hill for HS2 so the air pollution problem will get much worse and we'll need all the trees we can get there .</p>
