2017/3381/L	John Stedman	11 Centre Point House 15a St Giles High Street London WC2H 8LW	24/06/2017 17:33:45	OBJ	I object to this planning application on the grounds that the original planning application, associated planning applications and a string of related matters are the subject of a major complaint by residents about/to Camden Council and that this complaint will end up with the Local Government Ombudsman. Therefore I contend that absolutely no further planning applications should be approved until this process has been completed and a judgement handed down. The works associated with the original application are highly intrusive, unsafe to both the short and long term health of residents of Centre Point House and have not been subject to the necessary checks to investigate the impact on residents. Therefore these supposed additions and amendments to the original application must be seen as based on an unsatisfactory and possibly illegal original approval.

John Stedman
