

# Bikehangar

The Bikehangar is ideal for those with limited outdoor storage space. This compact shelter offers a secure solution to long term cycle parking as well as an effective way to protect bikes from tough weather conditions, theft and vandalism. It can store up to six bicycles and occupies only half of a car parking space. Its galvanised steel frame is fitted with a gas sprung door which remains open at the required height for easy access.

Cyclehoop can work with your organisation or local council to provide a fully managed cycle parking rental scheme.

For more details visit: [www.cyclehoop.rentals](http://www.cyclehoop.rentals)

The Bikehangar won the 'Cycle Parking Award' at the British Parking Awards 2014.
