

Dear Sir/Madam

I am writing in response to the Application to cut trees down ref. number 2017/3043/T

I am the owner of 2nd floor flat, 60 Pilgrims lane, London NW3 1SN.

In response to the proposal to cut down 2 trees in the garden of our house, I can say that we all at 60 pilgrims lane strongly object to cutting down 2 trees in the garden, because this is the wonderful feature of this house and surrounding houses and gardens for a long time and it is fantastic and nice, and a refuge and food for numerous animals and birds. No insects on those 2 trees present any more problems than on any other tree. We had never seen any problems from those trees. It feeds many birds and squirrels and so on. All these suggestions to cut the trees seem to be coming from one source, but all the people from 5 flats of our house - 60 Pilgrims lane - we had spoken to about this are against cutting the trees down.

Please do not cut down the lovely trees in the garden of our building. We live here and we want it, we love it.

Thank you, Mrs Tatiana Z. Wallis
