Key Plan, Scale 1:250

- Demolition Key:
- Existing structure / ground
 - Proposed removal of existing structure (in section)
 - Proposed removal of existing structure/finishes (in elevation)
 - Proposed removal of existing structure (in section)
 - Hatch denotes removal of existing concrete slab
 - Hatch denotes proposed removal of existing structure (in elevation)

- Proposed finishes legend
- Proposed straight-plank hardwood floor finish on specified floor build-up
 - Proposed floor finish on specified floor build-up
 - Portland stone
 - Timber decking
 - Natural stone floor tiles
 - Proposed slate roof finish on existing and new roof structure

- General Notes:
1. Refer to the Door and Window Schedules for a detailed summary of each door and window.
 2. All existing floor finishes and existing ply to be carefully removed.
 3. Existing floorboards to be installed. New furniture/joints are to be installed to the top of the existing joists in order to level. See Structural Engineer's Information. Low profile GFR throughout.
 4. New drainage and concrete slab to be laid at basement level.
 5. Existing slate roof finish to be carefully removed and stored, and new roof felt installed. Existing slates to be replaced. New slates to match existing to replace any damaged slates. Downpipes to fit portion of the roof, existing entrance canopy and dormer windows to be removed and replaced on a like-for-like basis.
 6. Joists are to be checked up and strengthened where required to support increased loads. See Structural Engineer's details.
 7. Existing internal walls are to be skimmed and prepared to take new wall finishes as required. All defective existing plaster to be removed and replaced.
 8. All existing paneling, mouldings and cornices to have existing paint finish removed for new paint decoration.
 9. Existing structural timber beams to be exposed and treated with wood preservative. Ends to be wrapped in GPC and rotten timber to be replaced.
