2017/1753/P	Verhaeghe	117 Canfield Gardens Flat 1	26/06/2017 20:27:40	COMMNT	<p>To whom it may concern.</p> <p>As nextdoor neighbours with direct and continuous line of sight on the east facade of 119 Canfield Gardens, we would like to comment that the current execution is entirely in line with its built surroundings, as can be seen on photograph 1. The yellow brick used is sympathetic to the back facades of the buildings surrounding 119 Canfield Gardens and if a red brick were to be used this would be entirely out of place.</p>
