I object to this proposal on the basis that the number of affordable units is not defined. Maybe Camden could get the developpers to plant high trees on the border with grange Park, so that when I enjoy the park I do not feel like in a fish bowl...All these developments should surely contribute to a plan to improve urgently pavements and safety of the top end of Kilburn high. that is grossly neglected. Additionally where are the visitors of these units supposed to park??? No CAQ I trust, as we have enough issues already. The area cannot take much more...
