Subject: Application Number 2017/2646/P

Dear Hugh Miller,
I am contacting you with regard to the planning application for a 2-storey extension at 5 Bacons Lane, N6 6BL.

I was unable to find the application on the Camden web site and have therefore not been able to access the plans however it is only a few years ago that the house and annex was redeveloped and upgraded causing a considerable change to the outlook from The Old Hall the adjacent Grade 2 listed build which overlooks the property.

A new two storey extension creating a separate dwelling house will seriously change the sky line and dominate the rural out look.

Bacons Lane is a private road which is already very congested even though access is only for residents. An additional house will further exacerbate the situation. Access to my garden gate which is adjacent to the proposed development is already frequently obstructed.

The houses numbers 1 - 4 Bacons Lane are covered by a covenant preventing them from being above a single storey I see no reason why an exception should be made for number 5 thus changing the character of the conservation area.

Your sincerely,
Maggie Gilliam.
