A0

Side windows to top floor flat When viewed from these windows the proposed house sits largely within the "visual shadow" of the gable end to 14 Parliament Hill, so the impact of the new house on light is very limited. Very good light to the windows is maintained.

Rooflights to provide natural light & passive stack effect ventilation to ground floor toilet & first floor bedroom. No overlooking or loss of privacy occurs.

.....Proposed side extension with glass roof to 14 Parliament Hill

Demolition, temporary works, & groundworks construction along boundary significantly simplified through coordination of works to 15a & 14 Parliament Hill. Construction work & time reduced.

_____ 12750 ridge level

_____ 12225 ridge level

== 8520 attic fl
8945 eaves level

_____ 6370 ridge level
_____ 6095 second fl

_____ 4125 eaves level

_____ 3420 first ffl

_____ 370 ground ffl
