Subject: Fwd: Comments on 2017/1750/P have been received by the council.

I would like to agree wholeheartedly with the remarks made by my neighbour Jeremy Moorshead. It is unsightly and an imposition on all the dwellings at this end of Iverson Rd. Roof terraces are a step too far. It is literally not possible currently to open windows on a warm night because of the existing noise levels from the Brondesage pub and the unbearable noise from the recently installed extractor fans.

We will organise ourselves and resist this application as far as we need to, up to and including legal action.

As one of the residents in the properties near the end of Iverson rd, the gardens of which would back on to the proposed roof terraces, I object to this proposal. We are already badly affected by privacy and noise issues from the rear of the properties on Kilburn High Road. It seems my neighbours can no longer enjoy their gardens or indeed have their windows open on a summer's night because of recent increases in extractor noise from bar kitchens. Now there is this proposal to have terraces which will overlook the gardens. Surely there is enough development in this very small area already.
