2017/1633/P	Jessica Ryde	3 59 Achilles Road West Hampstead nw61dz nw61dz	03/07/2017 12:28:29	OBJ	<p>As a neighbouring property I am concerned about this proposed development, for multiple reasons.</p> <p>First, changing from 2 to 4 dwellings. Our residential streets are already struggling with traffic and parking. Doubling (or more) the occupancy of this house will only add to this issue and increase the difficulty parking and congestion in the streets.</p> <p>Second, the increase in block size of this already imposing and out of character building. The overpowering depth and size of the house already dominates the view of Agamemnon road from both the Achilles and Hillfield directions. It looks already like a modern block of flats at the back - not in keeping with the thoughtful conversions around it. Doing more works will only exacerbate this and allow for the trend to continue.</p> <p>Third, the first floor extension will encroach closely to the balcony of the first floor of my building. It will be much closer to my bedroom windows and I am concerned noise from it will impact my flat, as well as my privacy as it brings neighbors closer to my bedroom windows.</p> <p>Fourthly, the lack of provision internally for bins: with 4 flats there should be amenity on their property to store and keep bins. If left by the new side entrance created this will block the pavement. And there doesn't seem to be provisioned space for 4 flats bins & recycling bins at the front.</p>
2017/1633/P	Steven Yankelson	flat 2 59 achilles road london nw6 1dz	03/07/2017 12:04:22	OBJ	I strongly object to the rear extension, specifically of the first floor, as it will be an invasion of privacy to 59 achilles road, overlooking the rear windows of both flat 2, and 3 and specifically the backing on to the balcony in flat 2 will be intrusive.
