2017/3477/T	P.G.Philippides	flat2nd floor 23 Carlingford road london nw31ry	03/07/2017 21:35:29	COMMNT	<p>I really cannot add to the comments from ground floor 23 Carlingford Road, with which I agree.</p> <p>The prunus could do with pruning. I can't tell anything (on my screen0 from the unclear photo of a wall crack .</p> <p>I don't see how such privet hedging could offer any privacy to ground floor neighbours for some /many years (I don't know how fast it grows). In any case, privet , in my opinion, is not an attractive plant/shrub.</p> <p>I notice others have planted bamboo (of which there are many varieties , with differing rates of growth) to create attractive (and faster growing) screens.</p>

I notice others plant bamboo to create faster growing and much more attractive screens !
