Subject: FW: Application 2017/2391/P change of use

Good morning,

Could you please upload this objection comment to application 2017/2391/P please?

Many thanks,

John Diver
Planning Officer

Subject: Application 2017/2391/P change of use

As local residents we have looked at this application for occupying a sui generis site with retail and it is not a well-considered or appropriate change of use. The lack of sufficient information and contact with the community is disappointing and insulting. To move from a one morning a week fresh produce market to full time exploitation of a temporary site, expanding it into some static stalls and including 50% food - all day is occupying a space that has an important environmental and social function for the whole community.

It is unacceptable to privatise this open space & manipulate a neighbourhood - without informed consent. We have read letters of support but there is a cynical lack of transparency and honesty in this application which is unacceptable in the current climate – and a lot of PR -. Please do not subject this community to the unaccountable commercial stress and oppression of a 'Takeaway Food' concession' in the centre of our 'village'. Please refuse this application
