The existing materials are respectful of the building's surroundings, with red brick, red coloured mortar and black painted metal work, along with more contemporary elements of render and timber cladding. The new development at roof level should incorporate these materials, to tie in the additional storey to the host dwelling whilst respecting the character and appearance of the surrounding buildings. The use of timber cladding is considered acceptable; however, the introduction of a second material could help prevent the development appearing as one large block and reduce the overall bulk.

Please provide a description of the approved development as shown on the decision letter:
