2017/3028/P	Lorraine Bryant	Flat 2 22A Red Lion Street London	04/07/2017 14:35:11	COMMNT	<p>As owners of Flat 2, 22A Red Lion Street we would like to be informed of the expected time duration of this work and the proposed commencement date. Once the work is completed we would ask for an appropriate level of respect when the staff are using the new terraces at 16 - 20 RLS both in terms of respecting our privacy whilst we are using our terrace and garden and being considerate regarding noise levels, also that the 'luminaries' and internal lighting are not left on out of office hours. We would welcome the removal of the unsightly/noisy air conditioning plant attached to the back wall of 20 RLS and that any replacement is located further away from the party wall and is less noisy and not active out of office hours. We welcome the re-location of the cycle store and removal of existing 'shed' and suggest this would be an opportunity for the applicant to decorate (white), or apply to decorate if they are not the owners, the east wall behind the shed which is in our direct view.</p> <p>We have appointed a party wall surveyor (Anstey Horne) to represent us on all aspects related to the party wall.</p>
