Subject: 2016/4605/P

Hi David,

regarding the application for the change to the roof terrace application 2016/4605/P at the Town Hall Extension. I wish to object to the roof terrace extending around or including any of the Argyle street or Tonbridge street side. Since the beginning of this application to turn the building into a hotel the developers have stressed their keenness to protect local residents from noise and disturbance. A roof terrace facing onto these two residential streets would certainly create noise and disturbance to residents many of whom, ourselves included, have young children.

I am extremely worried about the precedent this would set and over time the much cherished residential nature of the area would be diminished. Allowing the roof terrace to extend into Argyle Street would place the interests of the hotel guests above the interests of families who have a long term interest in caring for the area,

I hope that you will reject this application and demand that any roof terrace only be allowed to face the Euston road.

Yours

Johannes
