Subject: RE: Householder application - 2017/3670/P - 71 Fellows Road

Dear Tony

With reference to your two queries:

1. The existing panels (not a garage door) are double skinned white UPVC (with a perimeter mahogany sub-frame). The replacement window will keep the original perimeter mahogany sub-frame and the new window will be double glazed in white UPVC frames.
2. Please include the garage conversion in the current application with a note that the conversion took place in 1979.

Regards

Mike
