Dear Mr Charles Thuairé,  
Jack Straws Castle, Rear Car Park.

I am writing regarding the above application namely underpinning of basement in association erecting 2 4 bedroom 3 story houses at rear. Apologies for writing late, but have just seen the application.

I am very strongly opposed indeed to application, and am extremely shocked. Jack Straws Castle is situated in the most beautiful London, surrounded by Hampstead Heath.

Hampstead Heath is a ~~rich~~ wild, natural environment enjoyed by countless visitors, who come there for buildings and mankind. Hampstead Heath has "fought for" by generations of people who have and stopped "development" precisely so that general public can enjoy natural surroundings stroll in peace.

Buildings should not be allowed to be  
built on this land under ANY CIRCUM  
I would be sacrilege.

The underpinning is invalid.

Yours sincerely-
