

Stratus 360

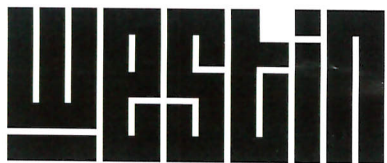

The Stratus Ceiling Built-in Unit is the first extractor to benefit from the new Westin 360 technology. Combining all the benefits of a ducted product without compromising on performance and now available with Westin's duct-free revolutionary air cleansing system.

Key benefits:

- high performance
- low maintenance
- no ducting required
- safe, effective recirculation
- a natural process which eliminates heat, odours and steam
