2017/2776/P	Ash Zaf	3 daynor house quex road nw6 4pr	06/07/2017 20:35:10	OBJ	this increase would create a disaster effect on the residetial area as it would have buisness coming in not to mention the relavant traffic having impact on locals. not to mention there would also be issues as the only fire exit would be in front hence it can lead to potential back trap. this would have a longer impact on area and would in future set precinct for converting residential dwellings for business uses hence changing the demographics and the area this appilcation approval would be a death blow to residents and the people living on quex road
