2017/3157/P	Ed Laws	centre point house 15A ST GILES HIGH STREET WC2H8LW WC2H8LW	06/07/2017 11:11:58	OBJ	Strongly object - these facilities are not needed as people have smartphones - these panels are ugly ways to make advertising revenue and make an area look tacky and dirty. These facilities also unfortunately attract people to do drugs like crack which is already prevalent in this area, people to urinate near them and throw rubbish - they are always disgusting micro spots and cheapen an area which is any case has had the life and soul knocked out of it by Camden council's short sighted approach to renovating this area. Objection on grounds of health and safety to all in the vicinity due to the misuse of these facilities ie drug, urinating, litter and disruption to peaceful lives of local residents of having an un-required facility with unsettling illumination This kind of tacky tasteless, illuminated features and fake service to make ad revenues, actually is redundant and behind the times if you actually know technology so the council should block it - the area has been ruined enough with past decisions
