#### Informative(s):

- 1 Reason for granting permission:

The proposed internally illuminated fascia sign and projecting sign is considered to be acceptable in terms of size, design, location and method of illumination. It would preserve the appearance and character of the host building, the conservation area and the streetscape/high street.

The proposal will not impact on the neighbours' amenity nor would it be harmful to either pedestrian or vehicular safety.

The site's planning and appeal history has been taken into account when coming to this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the Conservation Area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

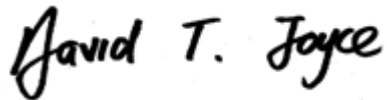

As such, the proposed development is in general accordance with policies A1, D2 and D4 of the Camden Local Plan 2017. The proposed development also accords with policies of the London Plan 2016 and the National Planning Policy Framework 2012.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
