2017/3291/P	Elizabeth Glyn	49 Princess Road	11/07/2017 14:17:34	COMMNT	I have seen the application for the adjacent property and am in general content with the volumes proposed; however I am very concerned about the impact of any overlooking from the proposed first floor terrace on my small garden. I would ask for any consent granted to be conditional upon the terrace not being habitable - with conditions to accompany any permission to help enforce this, such as the requirement for the roof to be a green roof without fall restraints (to discourage its use as a terrace). Without this specification, my privacy would be severely compromised and I must forcefully object.
