2017/3448/P	Thomas Aldridge	26 Richmond Avenue N1 0ND N1 0ND	12/07/2017 09:49:45	OBJ	I would like to object the this application on grounds of public safety. The current pavement width on this side of York Way is at present inadequate for the large passenger flows between the bus stop and the King's Cross St Pancras Interchange. Placement of a phone kiosk in this location would make this unsatisfactory situation far worse, forcing more pedestrians to walk in the bus lane. I believe this would present an unacceptable life-safety risk.
