| 2017/3702/P | Dalvinder Uppal | Flat 1 33 Birchington Road Kilburn London NW6 4 LL | 11/07/2017 22:03:28 | OBJ | I object as the noise on the terrace causes noise on a very small residential street and the owners have no regard for the residents. On many occasions since the terrace has been constructed (in 2015) I have made many complaints of noise coming from the terrace late nights between 12am-3pm. The noise from the terrace can be heard in our bedrooms and very annoying as we are unable to sleep. The restaurant has very late parties despite what they tell you and you have people standing on outside decking drinking/smoking, talking loudly and generally making a lot of noise. This should not be allowed. I am sure the retrospective planning permission was already declined so I don't under this planning permission ? |
