2017/2778/P	David Young	27 Tanza Road	24/07/2017 16:03:46	OBJ	As direct neighbours at number 27 Tanza Road we would like to object to the proposed roof terrace as it does not conform to the styles and plans that other householders along Tanza Road have been forced to commit to. We also believe that it will completely overlook our garden and restrict our privacy as it is not set in to the roof lines like other terraces. We do not object to the idea of a roof terrace in principle but it must adhere to the rules that we were obliged to follow when we made a similar application on our property. Please can you also inform the Conservation committee to advise on what is acceptable. We have also put the planning application in to the hands of our Party Wall Surveyor as we haven't been approached to date.
