2017/3692/P	monica teversham	38 talbot rd	16/07/2017 21:35:07	COMMNT	I welcome the more open and consultative approach of this application and hope that this will continue throughout any building work which might be given permission. Please can you minimise and manage any construction traffic in Millfield Lane as used by public throughout the year, including people with disabilities, children, dog walkers . Also, pond entrance please not to be used as turning space!
2017/3692/P	Judith Perle	39a Brondesbury Villas London NW6 6AJ	16/07/2017 17:24:57	COMMNT	I did not see the previous planning application which was refused, but I understand that the current application is much more modest. My only requests would be that impact on the Ladies Pond, and access to it, be minimised and that construction traffic in Millfield Lane be very carefully controlled and monitored. Also, that workers on the site respect the peace and quiet of the area as much as possible.
