2017/3702/P	Danilo Bergamini	30 Birchington Road	20/07/2017 11:46:16	COMMNT	<p>I oppose the application request due to the experiences we all had to cope with during the past year, with the wood deck.</p> <p>it's big and visually destructive in respect of a residential street.</p> <p>moreover the noise were out of control, and the increased seating space created a situation of savage parking in the street, without respect of people living here, loud noises both from the wood terrace seating area and both from their customers leaving the premises and hanging out on the street with cars engine on, like the customers can't understand the bounduries between the restaurant club and the street, this is encouraged by the owner of the restaurant club with their display of live music and outdoor party.</p> <p>beside the noise and savage parking, the outdoor premises is used mainly as evening alfresco dinner and entertainment hub, in this virtue the idea of limiting the use after 6pm is not realistic neither true to the facts.</p> <p>overall, the entire structure is ugly and out of proportion for the size of the street and the sidewalk. it's almost impossible to walk that side of the street anymore, and in the opposite side there is already a pop up veggie store, that occupy part of sidewalk and street. it's not possible to walk past that piece of street without feeling overwhelmed by everything. visually awful, and not true to the nature of a residential street.</p>
2017/3702/P	Rick	22 Birchington Road	22/07/2017 00:07:38	OBJ	<p>Birchington Road is a quiet, residential street, but since the restaurant opened with an outside seating area it's been noisy and infuriatingly difficult to park the car - especially at weekends - Cars are often parked illegally in the entrance to Iceland and around the entrance to Birchington Road from Kilburn High Rd and the build up of additional cars causes immense frustration, car horns going off, swearing, shouting and stand-offs on a regular basis - There's far too much machoism coming from a business that's meant to be a simple restaurant. The people living on this road and our children do not want a late night outside drinking culture, in particular.</p> <p>I cannot believe permission to build a restaurant on a residential street was granted in the first place. It has done the standing of the road no good whatsoever and I would like to see the road returned to what it was and the restaurant to go elsewhere.</p>

2017/3702/P	David Andrews	27 Birchington Road	22/07/2017 17:41:05	COMMNT	<p>I am horrified to find that yet again this restaurant is attempting to get official permission to continue to blight our lives as it has been doing illegally for the last two years.</p> <p>The supporting statement for this application talks about the changing the style of the terrace that they erected without permission. Yes it is a eyesore, but the main objection is to the noise created on the terrace by dinners drinkers & smokers. Even without them being rowdy I can hear the general chi chat of their patrons as I sit in my front room. I have to turn the TV up to drown them out. There are many residents of this Road who live closer to the restaurant than I.</p> <p>When permission was given to change this building from a retail unit with shop hours to a restaurant (none of the road was aware of this, we would have opposed this as being unsuitable for our residential street which had two long established retail shops at the High Rd end which operated 9 to 6pm)</p> <p>There was no mention of external dining when change of use was granted</p> <p>The restaurant erected a terrace without permission, were told to take it down, simple kept appealing as far as the secretary of state. lost the appeals.</p> <p>Were told to take it down or be prosecuted, took it down last week, but have continued to use the forecourt area for dining, therefore continuing to disturb their neighbours.</p> <p>During their appeal restrictions were placed on the use of the terrace.</p> <p>Not to be used after 6pm</p> <p>Neon sign not to be used (flashes 5 different colours)</p> <p>Auto device to be fitted to door to cut internal disco music when door opened</p> <p>NONE of these restrictions were ever complied with at any time</p> <p>My neighbours who live closer than I, have in the past approached the staff late at night asking them to clear the terrace as the noise is keeping their children awake.</p> <p>This was when 6pm was the limit for use of the terrace. Result they were verbally abused.</p> <p>To sum up. This residential street is not suitable for external dining/drinking/ smoking activities of any kind</p> <p>The actions of the applicant have shown they cannot be trusted to comply with any restrictions, so I beg you to fully reject this application as they have been blighting our lives & will continue to do so unless you put a stop to this application.</p> <p>Dave Andrews 27 Birchington Rd NW6 4LL</p>
