2017/2391/P	Emily Herdman	Flat 3 9 Fawley Road London NW61SL	15/07/2017 15:32:35	OBJEMAIL	We must not allow this become a daily market in West Hampstead as it ruins the village atmosphere of the area, and will have a negative impact on local business and cafes. Additionally traffic in the area is already very high, especially at peak times, with the school run and deliveries to supermarkets - the market would only increase the problem on a week morning. Camden council must start listening to local residents who have lived here for 37 years (having grown up in the area). Although we welcome change and like the Saturday market for a few hours, the site and location is not appropriate - there are already larger venues better suited such as the market in Queens Park on a Sunday and the market off Marylebone High Street.
