2017/0969/P	Olga Potapova	Flat 5 104 Fitzjohns Avenue NW3 6NT	25/07/2017 10:17:46	COMMNT	As local residents I would like to object to this planning proposal on the grounds of potential harm from radiation whereby no conclusive evidence exists such structures are not posing health hazards. Note there are extensive schooling facilities in the immediate vicinity. from the Council's perspective, should this installation be found detrimental to health, particularly health of children, there could be significant and costly litigations. It is furthermore unclear why such installation should be proposed in violation of the conservation area rules. Surely other more suitable and less impactful locations should be explored?

Many thanks
