2017/3745/P	David A. Griffiths	9 Heath Villas Vale of Health Hampstead London NW3 1AW	25/07/2017 22:16:36	OBJ	The description given in this application for the temporary removal and subsequent reinstatement of the original archway is directly contradicted by the detailed drawings which clearly show that that one of the pillars will in fact be permanently removed and not reinstated. The permanent removal of the pillar seems designed to facilitate the future ability to have a motor car use the archway on a permanent basis after the project has been completed. The application should therefore be rejected as the statement appears too be untrue.
