OBJECT

No objection in principal to new design of steps, though more information about new patterned tiles on the porch entrance area should be provided.

However, we object to loss of planting area due to proposed reduction of the planting adjacent to front wall. Space for new planting can be used in front of the railings near the front bay window. This would make a big aesthetic contribution to the appearance of the setting of the house, as well as enhancing the environment. Proposed replacement of asphalt drive with a new permeable drive surface is welcome.
