Subject: Objections to no 5 Daleham Mews
Attachments: WebPage.pdf; ATT00001.htm

A neighbour has been able to review the plans. He notes:

Note that new window to the rear terrace does not match with the floor plans, looks small on the elevation drawings in reality it will fit exactly between the two existing openings circa 3 metres wide.

So it appears no 5 wants to expand the windows and overlooking at the rear

Camden, as a condition, must restrict the no of windows and sizes to the rear to existing AND insist that obscure glass be used in the new window frames at the 2nd and 3rd floor level. This will help to remedy the current intrusive overlooking from an unlawful building

On this planning application current standards on conservation and amenity must apply. On renewing the windows Camden must enforce planning policy and insist obscure glass be used
