I would like to object to this misleading application. The wording of the documents is misleading and emphasises the re-instatement and avoids mentioning in all but one place that I could find, that there is no intention to re-instate the pillars adjacent to the pavement. This 'non reinstatement' means that it will be possible to use the entrance as a place to leave a car which at the moment is not possible. Leaving a car in the entrance will impact on the facility of parking on the road in front of the entrance - which is currently a parking space. None of the other houses in the row has the facility to park in a similar area close to the buildings. It is not in keeping with the conservation area.
